the highest bidder shall have first right of refusal in any referred bids. Once the bidder has refused any counter offers or negotiations then the Auctioneer shall declare the goods open for negotiations with other potential purchasers.

k. Subject to any reserve price, the highest bidder shall be the Purchaser and in the event of any dispute arising, the lot may be reoffered. The Auctioneer shall be the sole arbitrator and his decision shall be final in all matters relating to the Auction.

l. The Purchaser shall complete the "Conditions of Sale" as set out in the Company's written policy. In default of these conditions the Auctioneer reserves the right to immediately resell such lots as he deems fit.

m. Lloyds Auctioneers & Valuers (Lloyds) warns buyers that all plant & equipment offered for sale at Auction may not be fit for use in any workplace and that the buyer is responsible to ensure compliance with all necessary requirements under the Act and Regulations and that the plant and equipment is fit for its intended use in the workplace prior to being used for its intended purpose. Plant MUST be given a safety inspection prior to operation when it's purchased at auction. (Please refer to the Electrical Safety Guide for more information).

4. THE AUCTION PROCESS

4.1 The Auction Process

a. You must register with us to enable you to bid on any auction. Various auctions may require a registration fee which must be paid before any bids can be placed on that particular auction.

b. Implicit in placing a bid on any item is acceptance of the specific terms and conditions of that particular auction and that particular item.

c. Every auction has a specified auction Date and Starting time.

d. There are various auction Types and it is important to be aware of them as they will impact the way bids can be lodged and accepted.

No Online Bidding – these are traditional live auctions, which are typically being held in remote locations or have special conditions which prevent us from being able to offer online bidding. The information provided is there to help you in assessing the lots prior to the live auction.

Internet & Absentee Bidding Only – these are online auctions where there will be no traditional live auction. The only way to bid will be online. You will be able to follow the online auction as each lot is sold, one by one. You do not have to wait for your lot to be offered as you can leave a proxy (or maximum) bid on any lot at any time.

Live with Pre-Absentee Bids Accepted – this will essentially be a traditional live auction. You will be able to place an absentee bid via the web site, however the online bidding will close prior to the commencement of the live auction. This means you may be outbid at the live auction.

Complete with All Bidding Options – these auctions are traditional live auctions. You can bid in person at the live auction or bid remotely via this website during the live auction. The web site will follow the live auction as it progresses lot by lot; allowing you to watch and bid on each lot as it is being sold.

e. Bids placed on the web site can either be at one bid increment above the current bid amount or at a greater amount.

f. We reserve the right to set a Starting bid at any level, in the absence of such a minimum price being placed, the minimum will be \$1.

g. A multiple lot is one where the Quantity (In The Quantity field) is greater than one (1). On a multiple lot the bidding is per unit. ie 12 x Dining Chair, a bid of \$10 for a quantity of 8 will obligate the bidder (if successful) to pay \$10x8 (\$80) plus any associated charges.

h. The Purchaser acknowledges that any software included in sales of computer equipment may be under licence to the Vendor and that the terms and conditions of the License may restrict the use and transfer of the software. The Purchaser acknowledges that the company does not offer title to such software and it may or may not remain the property of the Vendor.

i. We may, at our absolute discretion, cancel an auction, close it early, postpone an auction or reschedule an auction, for any

the catalogue provided is to be used as A GUIDE ONLY***

reason. Such a decision would not be taken lightly and maybe as a result of vendor instruction, legal requirements or technical failings.

j. An individual lot may be withdrawn from a particular auction or moved from one auction to another at our absolute discretion.

k. Bids will be ordered according to the following determinates:

(i) the \$ bid amount

(ii) bid quantity bid amount (Multiple Lot only)

(iii) the time the bid was lodged

l. Upon becoming the successful bidder, the Purchaser shall be responsible for guarding and securing any lots. The Auctioneer accepts no responsibility after the fall of the hammer for safeguarding of any lots. Ownership and title shall not pass to the Purchaser until all lots are paid for in full. Lots will not be available for removal upon part payment.

4.2 Auction Closure

a. The auction closes at the end of the time specified for that lot and where there are no new successful bids in the closing time of the auction. This is typically the last 15 seconds of the sale, but may vary from auction to auction and will be specified on the Lot Details page if there is any variation. If there are any successful bids on a particular lot within the hot time, the countdown timer will be reset. When an auction is live the Auction Detail page will refresh the current bid amount and estimated closing time every few seconds. Some variation in the "Closing time" will be experienced. This may due to your connection to our server and consequently we accept no responsibility any consequences resulting from this variation. We highly recommend not attempting to place a bid at the last second.

b. If in your preferences you have selected the option to receive successful bid notices, one will be emailed to you upon your bid being accepted. This is a provided as a courtesy only.

4.3 Collection of Goods

a. All lots purchased must be paid for and removed by the date / time specified in the conditions of sale. No purchases may be removed from gated or secured areas until goods have been paid for and a collection slip has been obtained and a staff member marks off the goods as they are collected.

b. The purchaser acknowledges that he is responsible for the safe collection of all equipment or goods purchased. The items are the property of the purchaser upon settlement and it is the sole responsibility of the purchaser to provide adequate & appropriate equipment and labour to safely collect any goods purchased.

c. Auction staff are provided to assist in identifying purchasers goods - they are not responsible for loading or safely securing goods onto purchasers transport.

4.4 Time Zones

The starting time for an auction is specified in the Time Zone of the hosting auctioneer. As you may be in a different time zone, every lot has an estimated time until sale.

5. RETURNS

5.1 Return of goods

a. Goods purchased at auction may not be returned. No allowances, refunds or warranties are offered with any lot whatsoever whether express or implied.

b. If however, we have, by our description or representation of a lot, misled you and a physical inspection of the goods was not permitted or would not have revealed true nature of the goods they may be returned.

c. If you need to return a lot, we must be notified in writing within 5 days of the auction date. As the proceeds of sale are

remitted to the respective vendors approx. 5 days after the date of sale, the goods must also be returned to us within 2 days.

6. GST

The Auction Detail Page and Lot Detail Page will state whether the bid amount, the buyer's premium and any other fees are inclusive of GST (GST Inclusive) or exclusive of GST (GST exclusive).

7. DEFINITIONS

Buyers Premium = percentage of the Winner's Bid Amount as identified on the Lot Detail Page. The Buyer's Premium is payable in addition to and at the same time as the Bid Amount, and will form part of the total Invoice Amount to be paid. The GST component of your purchase will be clearly displayed on your invoice.

Lot Detail Page is the page on the web site that contains all the information about a particular lot.

Privacy Statement is the statement so named and available from the page menu at the base of the Home Page.

Auction Detail Page is the page on the web site containing the specific information regarding a particular auction.

This Users Agreement is governed by and will be construed according to the law of Australia and its States and Territories. The auctioneer and you are subject to the jurisdiction of the courts of Australia and its States and Territories.

We may, from time to time, be required by law, industry standard or company policy to update and amend our User Agreement. These changes will take effect from the time of publication of this User Agreement, so we suggest you re-acquaint yourself with it on an annual basis.
